PROFESSIONAL SUMMARY

Motivated IT Engineering student specializing in Python, AI/ML, and full-stack web development. Experienced in building AI-powered web applications using React, REST APIs, and NLP. Passionate about cloud technologies and cybersecurity. Strong academic performer (CGPA 8.61) with hands-on project experience and hackathon achievements.

EDUCATION

Bachelor of Technology (IT) — Silver Oak University, Ahmedabad 2023 – 2027
CGPA: 8.61 / 10

INTERNSHIP

Green Skills & AI Trainee | Skills4Future Program – Silver Oak University Dec 2025 – Jan 2026

- Trained on applying Artificial Intelligence for eco-friendly and sustainable solutions across real-world scenarios.
- Gained hands-on exposure to AI concepts, data analysis, and environmental responsibility through practical exercises.

PROJECTS

GeoVision — AI-Powered Geospatial Analytics Platform <https://github.com/arihant2207/GeoVision.git> Apr 2026

- React • TypeScript • Tailwind CSS • Leaflet.js • Leaflet/OpenStreetMap • REST APIs
- Built a full-stack geospatial analytics web app using React, TypeScript, Tailwind CSS, and Leaflet.js that lets users visualize and analyze location-based data interactively on maps.
 - Integrated AI-driven modules for location scoring, comparison, recommendations, and a chatbot — all connected to backend REST APIs for real-time geospatial insights.
 - Stack: React, TypeScript, Tailwind CSS, Leaflet.js, OpenStreetMap, REST APIs

AI Financial Advisor — Personal Finance Chatbot Sep 2024 – Nov 2025

- Python • NLP • Machine Learning
- Developed an AI chatbot that helps Gen Z users manage personal finances by providing personalized budgeting, saving, and investment advice using NLP and Machine Learning.
 - Designed a conversational interface with behavioral analytics, making financial literacy accessible and actionable for young users.
 - Stack: Python, NLP, Machine Learning

Sentiment Analysis Web App https://github.com/arihant2207/Sentiment_analysis.git Sep 2024 – Nov 2025

- Python • Flask • TensorFlow • Hugging Face Transformers • NLP • JavaScript • Chart.js
- Created a web application that analyzes text data to detect public sentiment — positive, negative, or neutral — useful for businesses and researchers to understand customer feedback and market trends.
 - Stack: Python, NLP, Web Framework

TECHNICAL SKILLS

Frontend: HTML, CSS, React.js, Tailwind CSS, TypeScript
Backend & APIs: REST APIs, Fetch API
AI / ML: NLP, Machine Learning, Data Analysis
Languages: Python, JavaScript
Cloud: AWS (Academy Cloud Foundations), Google Cloud
Tools: Git, GitHub, VS Code

ACHIEVEMENTS & CERTIFICATIONS

- Top 7 Teams — Smart India Hackathon (SIH 2025), Silver Oak University — Presented GeoVision, an AI-powered geospatial analytics platform.
- Tic Tech Toe Hackathon 2026 Participant — Built GeoVision with interactive maps, AI insights, and real-time data visualization.
- Oracle Cloud Certificate
- AWS Academy Graduate — AWS Academy Cloud Foundations
- Google Cloud Career Launchpad — Cybersecurity Track
